

Southwest Medical Group Neurology Associates

Marlene Dietrich, M.D., came to Vancouver in 1998 after practicing Neurology in California for 10 years. She received her medical degree from The University of Chicago Pritzker School of Medicine in 1983. In 1988, she finished a residency in Neurology at the University of Chicago, and then completed fellowship training in Electroencephalography and Evoked Potentials at Rush-Presbyterian-St. Luke's Medical Center in Chicago. Dr. Dietrich is Board-certified in Neurology as well as Clinical Neurophysiology. She has also co-authored articles. Her professional interests are Epilepsy, Sleep Medicine and women's issues pertaining to Neurological disorders.

Paul L. Jacobsen, M.D., joined the clinic in 1989, after completing the residency program at the Medical Center Hospital of Vermont in Burlington. Once a teacher and clergyman, he graduated in 1985 from the Medical College of Virginia in Richmond. Dr. Jacobsen has special training in the diagnosis and treatment of Sleep Disorders. His professional interests are Ultrasonography, Evoked Potentials and EEGs.

Walid Massarweh, M.D., recently joined Vancouver Neurologists. He received his medical training at Baghdad University College of Medicine. He then completed his Neurology training at the Oregon Health and Science University. During his time there he received training in EEGs and EMGs. Dr. Massarweh is Board-certified in Neurology and Psychiatry.

Elena Robinson, M.D., is a neurologist who has a special interest and experience in treatment of headaches and neuropathic pain. She received her medical degree from the University of Washington, where she also completed a residency in Neurology and a fellowship. During her training, she participated in research and gained experience in headache management working at hospitals in London, England; and St. Petersburg, Russia. She is particularly interested in treatment of intractable headaches using implantable neurostimulators for symptom control and has a commitment to clinical research. She completed a certificate program in clinical research at the University of Washington.
